JAPS NOW WANT NEW TREATY ON ALL SUBJECTS

(By Associated Press)
TOKIO, Japan, Nov. 19.—A suggestion that the Japanese-American negotiations in Washington be extended to cover all subjects affecting the relations of Japan and the United States is made in an article in Asahi Shimbun of Osaka, which urges the particular necessity of a naval understanding. The newspaper asserts that America's navy policy is in the entire control of her "naval bureaucrats" and declares America's present naval policies shows that some of her ambitious men wish to crush Japan before the latter's power increases, and it urges the Japanese government to take the initiative toward an understanding which would eliminate useless naval competition. The Asahi advocates a complete understanding with China and proposes that the Washington government be invited to publish what it calls the Root-Kerensky agreement regarding the Siberian railroad and the definite attitude of the United States toward the acquisition of rights and interests in Siberia.

INTEREST SHOWN IN COAST GAME

A great deal of interest is being shown in Tonopah as to the result of the football game between California and Stanford universities tomorrow afternoon at Berkeley. The game will decide the championship of the Pacific coast and it is probable that the winner will be selected to represent the west against some representative team from the east at the New Year's game during the Tournament of Roses at Pasadena. Almost all who have been following the teams this year give California the better chance of winning but there are a few who maintain that the Stanford spirit will overturn the odds and that the team will surprise those who attend the game. Second in interest to this is the Harvard-Yale game, for on its outcome depends the team which will in probability represent the east at Pasadena.
